Summary: (machine translated)

Small rappel canyon with water flow even in summer.

Hydrology:

Access: (machine translated)

From Calvi, we drive past the airport to the Cirque de Bonifatu, where we park the car in the paid parking lot at the exit of the road (IGN "536").

Approach: (machine translated)

From the north-eastern end of the parking lot, we cross the Figarella on a suspension footbridge and follow the path that leads up to the Refuge de l'Ortu di U Piobbu. The path climbs steeply at first, but then flattens out at an altitude of around 740m. After a while it crosses the stream - entry.

Tour: (machine translated)

Sequence of smaller waterfalls, which are rappelled from trees in the lower area. There are almost always exit options to the left to a path. Once we reach Figarella, we look for an exit on the other side of the river up to the piste. At the ford at the latest, turn right out onto the slope.

Return: (machine translated)

Down the slope to the parking lot.
