Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Dry canyon to combine with the one of the Mine and its Geode mine, short and vertical.

Hydrology:

Access: (machine translated)
We will have to be located in Albuñol.
Arriving from the beach by the A345 we will cross the Angostura wadi and just after passing the bridge and with Albuñol in front of us, we will have a small road on the right that goes up the right side of the wadi. We will go up until just a moment where the road turns to the left and leaves the wadi. Here we will leave the return vehicle or if we only have one.
With the access vehicle we go up to the greenhouses, we make the left fork and we take the first track that goes to the right, it goes north up the Angostura bank. After one kilometer, in a small hill where two tracks go off to the left, we continue a little more and park. Our ravine will be on the right

Approach: (machine translated)
Access to the Mina, Era and Cura banks.
From the vehicle above is almost immediate, we follow the track a little until we can get into the riverbed.
From the vehicle below we should go up the track to the headwaters.

Tour:

Return: (machine translated)
When we reach the Angosturas ravine, we will follow it down to the parking lot.

Coordinates:
Canyon Start 36.7951 -3.1923
Canyon End 36.7951 -3.1923
