Attention hydropower plant! This morning at approx. 10:10 a.m. water was released from the Stillup reservoir (several m3 thundered down). (machine translated)

2024-09-11 | Casa Vento Madeira | | | | Crazy | Not done
Water level definitely too high, approx. 500 l/sec, estimated at the exit bridge. As there is virtually no information or pictures of this tour, we decided not to do a tour for safety reasons. (machine translated)
