| <b>Access:</b> (machine translated)<br>Leave the A 40 freeway (Geneva-Lyon) when it turns towards Paris in the direction of Lyon. Now 10 km on the A 42 direction Lyon to leave it via the D 77E. Before Amberieu (en Bugey) one comes on the N 75, drives on this to the south. 9 km further one drives over Rhone and turns shortly afterwards in the direction of the east. On the left bank, Rhone goes up for 5.5 km. Here we leave the N 75 and cross to Villebois on the other side of the Rhone. Here we park near the church. |                                    |                                       |
| <b>Approach:</b> (machine translated)<br>From the church, we follow the dirt road uphill in a northerly, later north-easterly direction. We cross another path and now follow a path until a sign points to the Rhéby canyon. We continue along the path as it swings over a side stream. Continuing north across a clearing in the forest, we reach the entry point.  |                                    |                                       |
| <b>Tour:</b> (machine translated)<br>Short but attractive, well to combine with the nearby Trefond-Pernaz and/or Arodin. Prohibited in August and from Nov. 1 to April 14 (as of 2012).  |                                    |                                       |
| <b>Return:</b> (machine translated)<br>After the last waterfall (C9) a sign ("sortie canyon") points out to the left. It goes steeply up again to the path on which we came and on this right down to Villebois.   |                                    |                                       |

Automatisch importiert von Descente-Canyon.com für Canyon Rhéby Partis derrière un groupe de 3 (véhicule immatriculé en Allemagne) on a bien géré mais la dernière cascade pose problème avec ce débit si le leader ne maîtrise pas parfaitement la précision du rappel sous peine de passer sous la cascade ou de finir au pied dans pouvoir en sortir. Il faut partir depuis un maillon rapide sur monopoint le plus à droite pour se décaler au maximum et espérer éviter d'être embarqué vers la cascade. Rappel guidé pour les suivants. Magnifique canyon avec ce débit. Arodin et trefond-pernaz faits le matin, avec encore plus d'eau. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/224/observations.html>)
