Altitude entry: m	**Altitude exit:** m	**Delta Altitude:**
Canyon length: 50m	**Highest rapell:** 9m	**Amount rapells:** 4
Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Short, perfect to combine with Cal Pel-Roig, peculiar access under the road through the water conduit.

Hydrology:

Access: (machine translated)
We will take the C17 to Figaró.
Exit and continue along Carrer de Ribes to the bridge over the freeway (Pont de Montmany), where we turn left.
After crossing the bridge we reach the tracks and the Montmany signposts on the left.
We will follow this road for a few kilometers until we find in a left curve, the access to the tennis courts. Right here we have place to park

Approach: (machine translated)
Access bcos Montmany
We go back about 50m to the passage for the torrent water, we will go through it, just at the exit begins the descent.

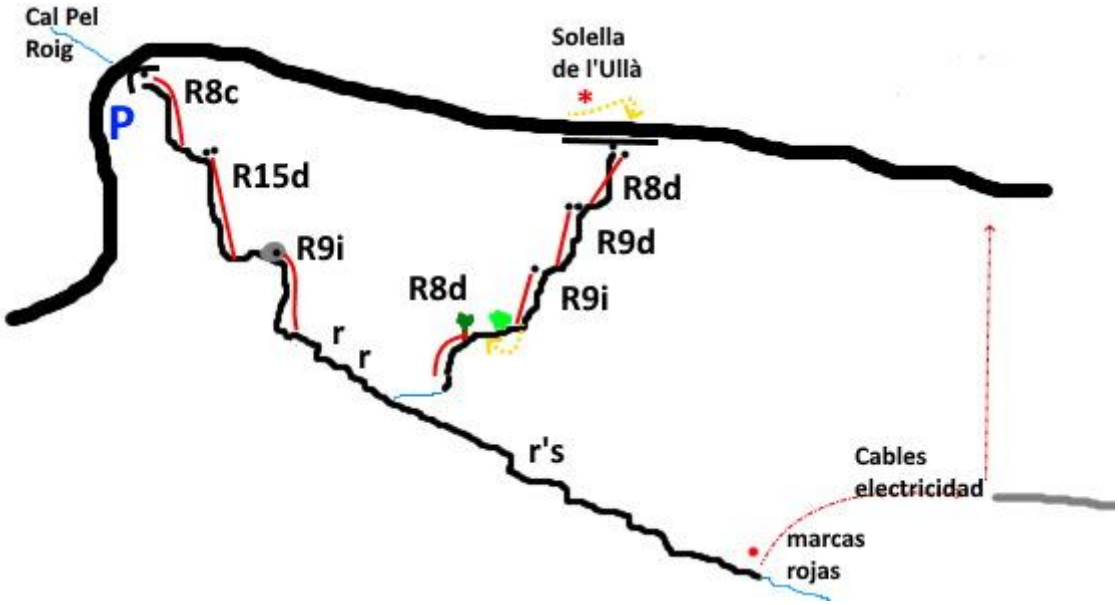

Tour: (machine translated)
At the exit of the passage we have a parabolt on the right to secure ourselves and to be able to install the first rappel. If we are a large group, it is better to carry two ropes to continue the descent and leave a gap. When we reach the confluence with Can Pel-Roig, we will continue for about a hundred meters of climbing.

Return: (machine translated)
A red marker on the left will take us up the hillside, along a small path that climbs under the power lines, when we reach an electrical tower we will see the detour to the left to go up to the road.
