Summary: (machine translated) Hiking and swim canyon		
Hydrology:		
Access: (machine translated) From Bierge on the southern edge of the Sierra Guara in the direction of Aguas (west), Yaso. Cross the Alcanadre below a dam and reach Morano. 500 m after the village, in a bend to the left, turn right into a parking lot (where you also park for the access to the Peonera inferiore). Take the second vehicle back to Bierge and from there continue towards Rodellar. After 10.5 km turn left (west) to San Saturnino. Park the second vehicle there.		
Approach: (machine translated) From San Saturnino westwards down to the river (15 min.). If you have only 1 vehicle at your disposal, you can go northwards from the parking area north of Morano along the track that starts here. After a bend to the right, there is a track on the left that we follow to a saddle. It continues in a winding way, but basically in a northerly direction (parallel to the Rio Alcanadre, which runs to the east). Beyond the Alcanadre one sees then the houses of San Saturnino. The slope that leads off to the right brings us to the river (90 min. in total). Access is also possible via Bco. os Arenales (see video and photos 201), at the Puente d'o Caxigo (footpath to the Hermitage de San Martin) and via Fajana del Ordio (see map sketch at \tSierras de piedra y agua. Barranquismo en Huesca - Parque de la Sierra de Guara - Sierras exteriores. . Enrique Salamero, 2002).		
Tour: (machine translated) Although the Alcanadre (in summer) has no water at the beginning, this changes as you enter the narrows. The exit over a rock ramp at a sharp left bend of the river is easier to see if you have already entered the Peonera inferiore here.		
Return: (machine translated) After the canyon narrows again after a long widening, it makes a sharp left turn after a few hundred meters. Here straight up the cirque (access to the Peonera inferiore) and on the path first keeping right, later in a long left bend back to the vehicle in the parking lot north of Morano (45 min.). Man can also continue the subsequent Peonera inferiore. There, after the right turn in the following. There is also another exit to Morano after the right bend in the following left bend.
