Canyon length: 1000m	**Highest rapell:** 20m	**Amount rapells:** 7
Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Also known as the Noguereta is a dry ravine that only carries some water with heavy rains.

Hydrology:

Access: (machine translated)
On the CV20 at pk 21 we turn towards Argelita on the CV194.
From the village we continue along the CV194, leaving the Lucena turnoff (CV193) on the right. At the pk 13.6 there is a sharp turn to the left and on our right the exit of Barranco Hondo, a little to the right there is a place to park the return car.
If we have only one car we will continue to Ludiente and at the exit at the fronton or a little further up the track at the cemetery, we will park.
If we have two cars we follow the road until almost pk 23, a sharp left turn, we have the old road on the right and soon a track on the right, follow this track to the Mas de Vicenta.

Approach: (machine translated)
Access to Hondo and Escalera ravines
With two cars it is immediate from the Mas.
With one from the fronton, by the asphalted track that goes up to the cemetery, we follow that road to the Mas de la Pobla (always on the right) and after the Mas de la Pobla, about 50m to the left there is a path that goes up to the Mas de la Noguereta and here takes the track that leads us to the riverbed.

Tour: (machine translated)
Easy with plenty of climbing skills and 7 rappels. The only complication is that the terrain can be quite slippery if it is wet.

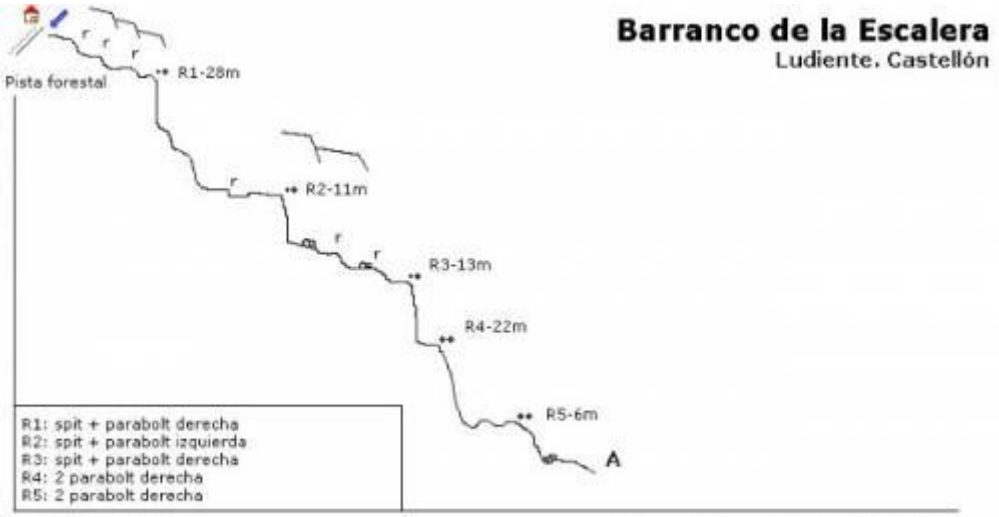

Return: (machine translated)
After the confluence with the Hondo ravine we reach the river Vistahermosa, we go up it a little and go up to the road. If we have two cars the return car will be here. If not we have to walk to the village

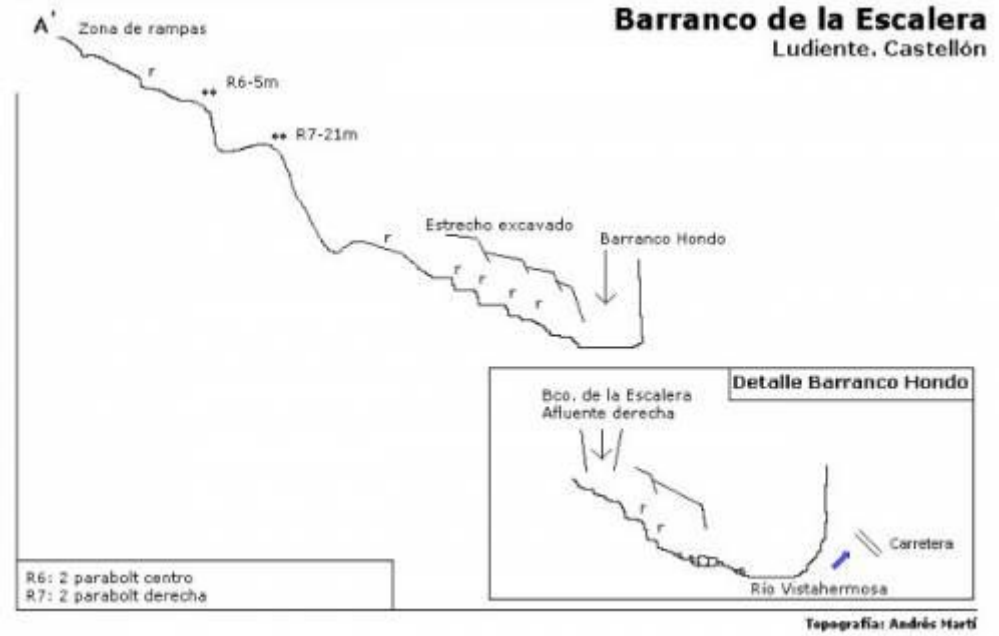

Coordinates:
Canyon Start 40.0971 -0.3365
