Summary:

Hydrology:

Access: (machine translated)
We will leave Sant Llorenç de Morunys towards the village of La Coma. After this, at kilometer 7 we find a track on the right that indicates Camí dels Clots. This will take us to the farmhouse of Cal Fité. One hundred meters before arriving at the farmhouse we can leave the car (Same place as the car at the beginning of the lower section).

Approach: (machine translated)
From the same parking area there is a path that goes north northwest to Pregona coma and Collada de La Moixa. The trail is very obvious until you reach a recently deforested area, where we will pay more attention. We will reach a forest track that we will follow until we reach a crossroads with a signpost. We will take the track on the right and continue for about 600 meters until we reach another crossroads. We will turn off again to the right. This track descends looking for the bed of the ravine and the first rappel.

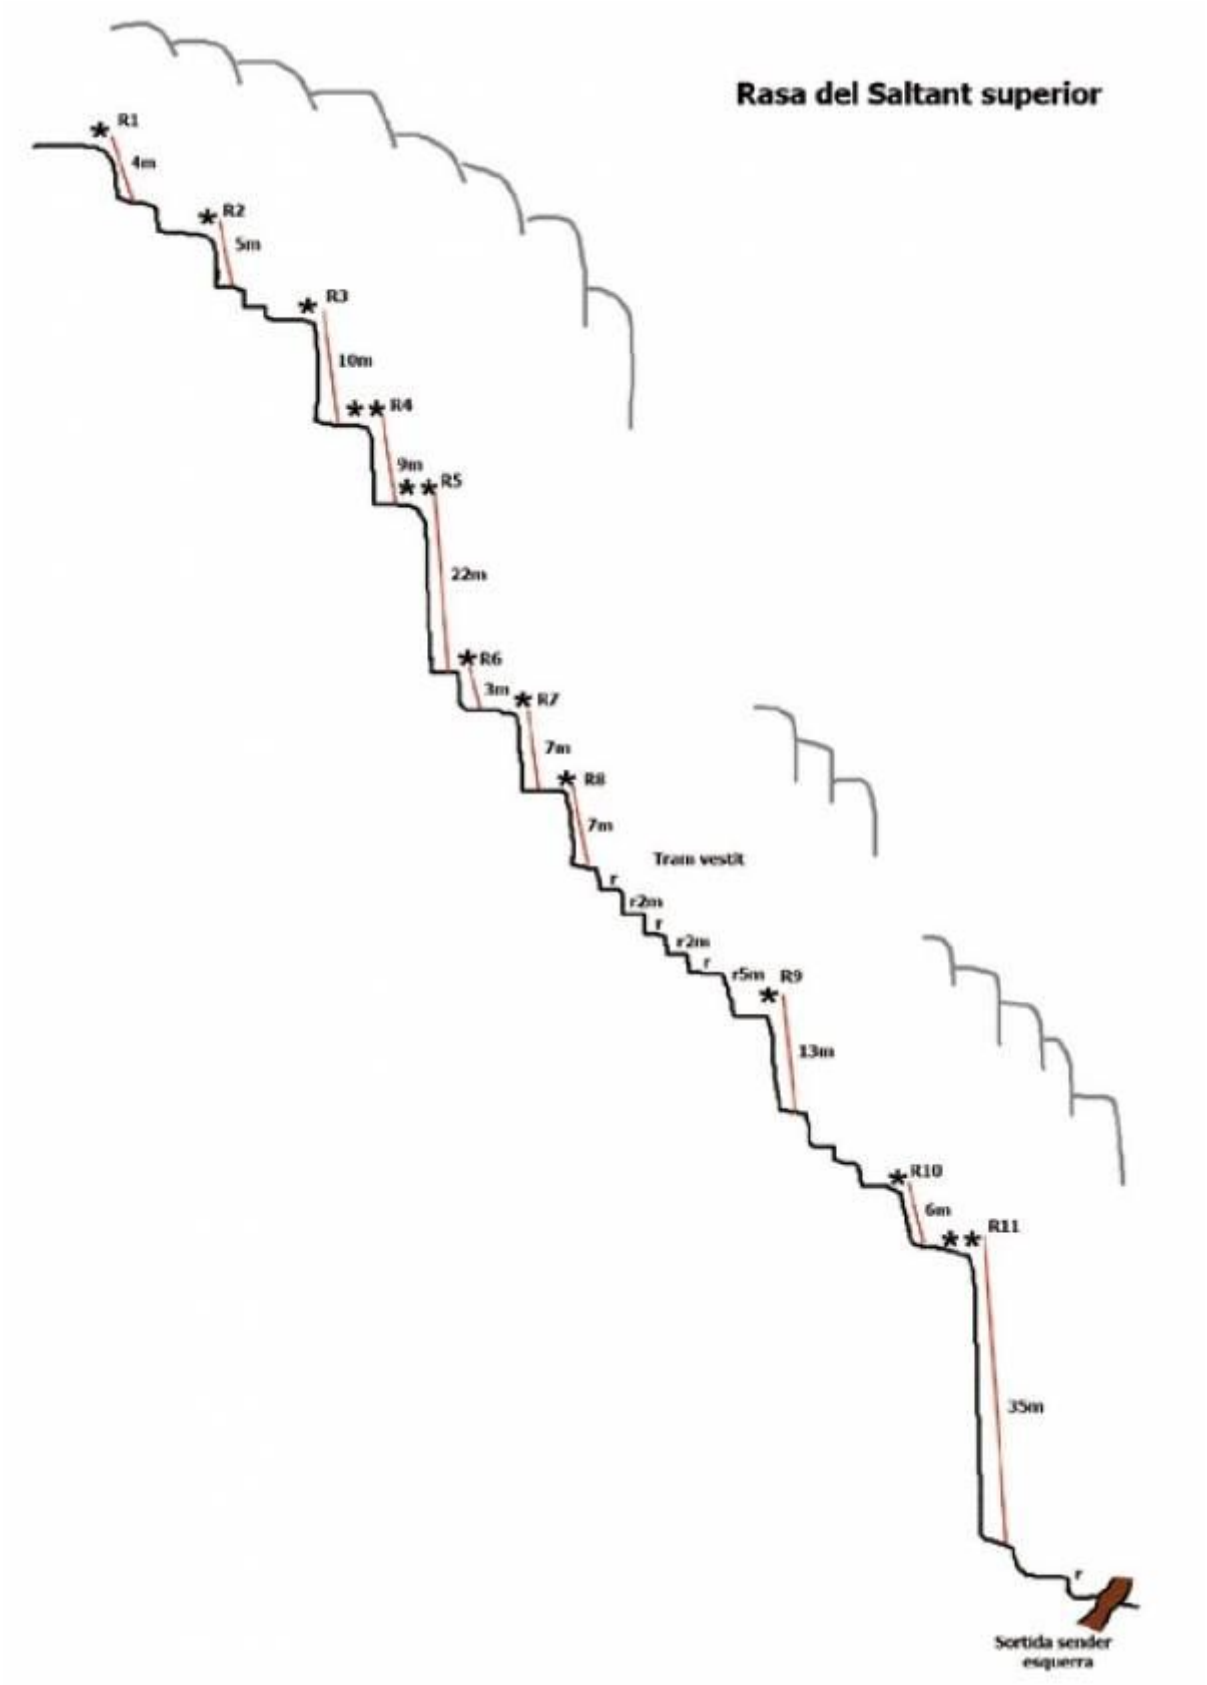

Tour: (machine translated)
Very vertical descent and generally without water

Return: (machine translated)
After the 35-meter rappel we will continue down a few more meters along the riverbed until we find a path that crosses the ravine. We pass it, we do some more projections until we reach a very obvious clearing. Here there is a small path that will take us to the approach road and the car.

Coordinates:
Canyon Start 42.1874 1.5868
