<b>Summary:</b> Nice tour with many jumps. There's the option as well to do the upper part too.		
<b>Hydrology:</b> Rather small catchment area, quite easy descent during the dry season.		
<b>Access:</b> Shuttle is quite long, and the road is steep and bumpy, se better to have a good off road car.		
<b>Approach:</b> First part is on a track, then it goes down through the forest on a ridge.		
<b>Tour:</b> Most drops are quite straight forward, only one crack is a bit weird to downclimb, and the big waterfall has a revelation. A good amount of jumps can be done.		
<b>Return:</b> Best is to park the car 1km uphill of the collector, even though this means quite a bit of a drive for the shuttle.
