Summary: (machine translated)
A very, very short canyon with three jumps and walking passages.

Hydrology:

Access: (machine translated)
Between the towns of Hatzic and Dewdney, turn north onto Sylvester Rd. Follow this road for about 33 km until you reach Lost Creek Forest Service Rd. Then turn left until you reach a steep left-hand curve, and then immediately turn right for about 200 meters to the parking lot.

Approach: (machine translated)
From the parking lot, follow the hiking trail to the river (5 minutes).

Tour: (machine translated)
There are only three jumps, all of which can also be rappelled down. There are walking passages between the jumps/rappels, so it’s more like a river walk—which poses no problems at all when the water level is low.

Return: (machine translated)
About 200 meters before the bridge, turn left up the road and follow it back to the parking lot.

All the jumps are easy to do, and the pools have enough depth. The first jump can be repeated. Since the canyon is very short and has only three jumps, it can easily be combined with Terepocki Creek. (machine translated)
