Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Dry ravine, vertical, neighboring Zangarriana. Access by the same track and parking in the same place so it is ideal to combine them.

Hydrology:

Access: (machine translated)
We must be located in Cortes de Pallás, which we will reach by the CV428.
Once in the village, we will cross it almost straight ahead in search of the Cta de la Muela. We will follow this road up to the pass where we will find the GR on our right (Cruz del Collado). Here there is a place to leave the return car or if we only have one car.
We will follow the road for about 4 kms until just the Alto de Ayora, there is room to park on the right.

Approach: (machine translated)
With a vehicle we will have to walk up to the top.
Once there, we go out to the NW towards the cuttings.

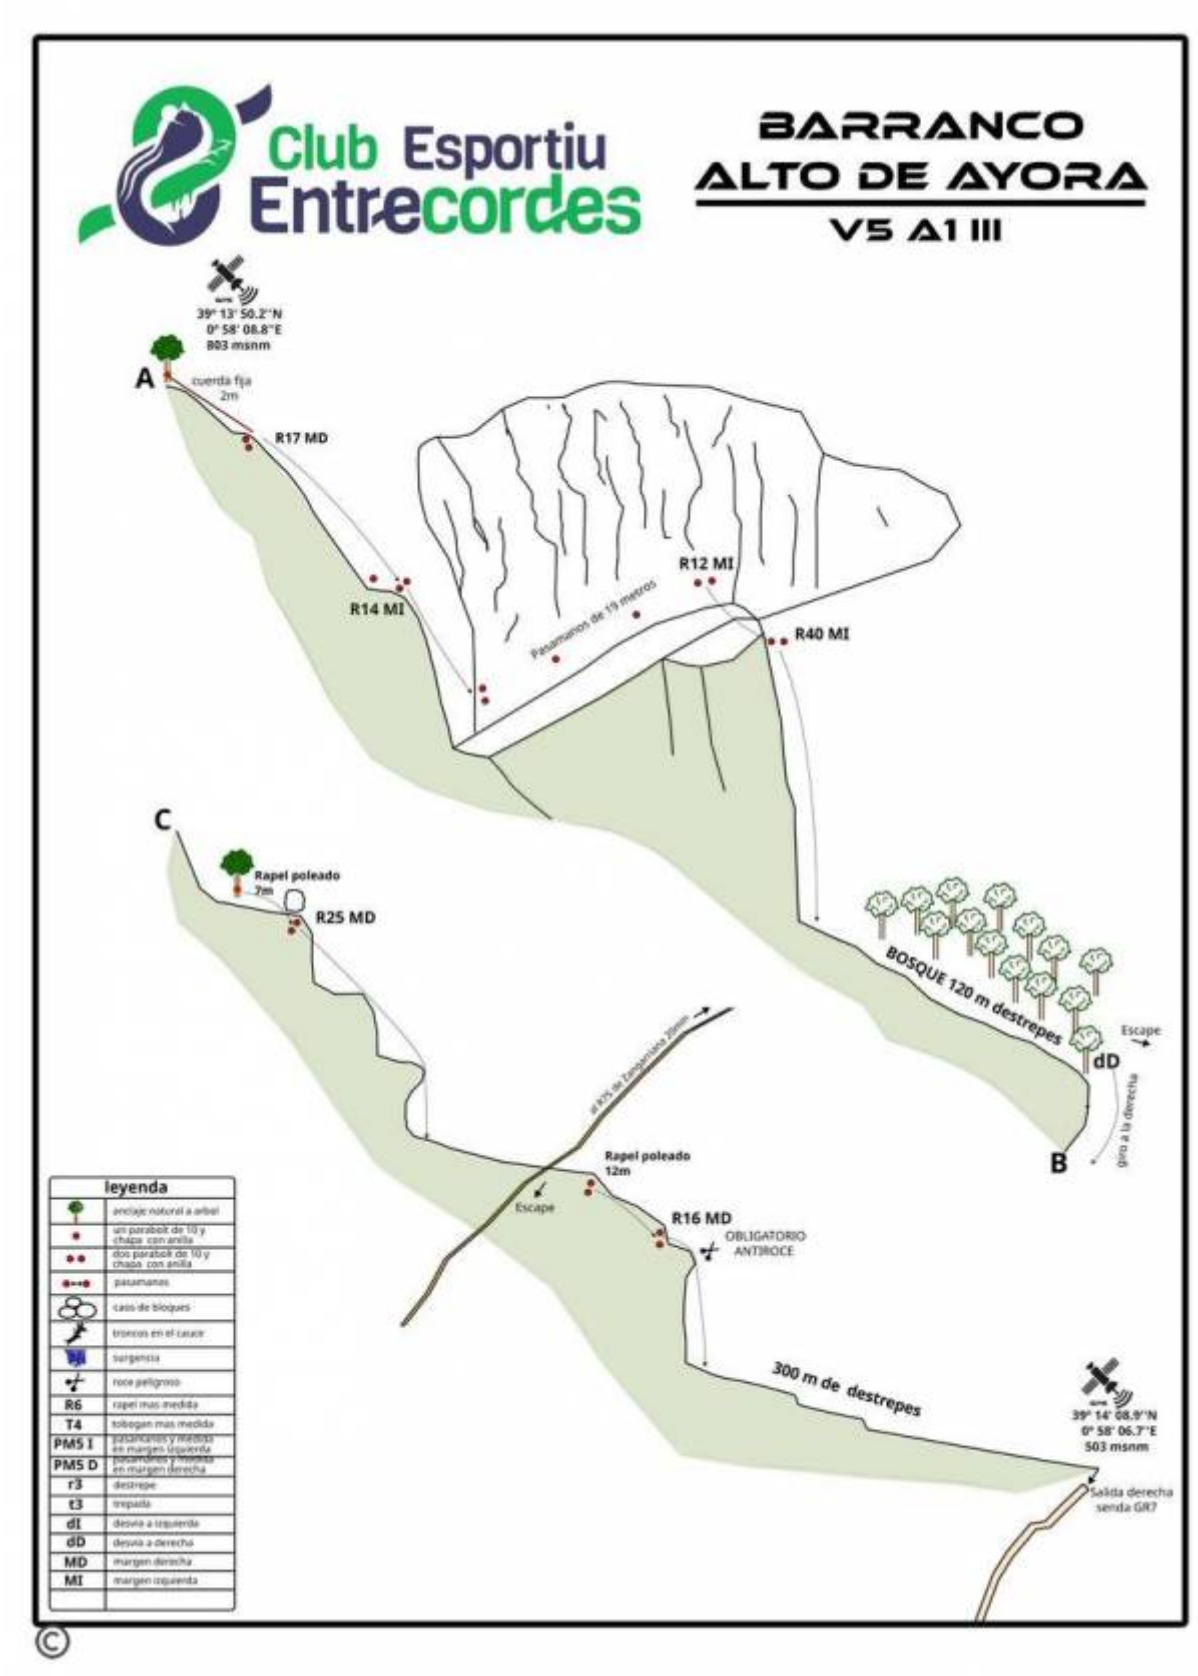

Tour: (machine translated)
See mole

Return: (machine translated)
When we reach the GR, we exit to the right
