Summary: (machine translated)
Relatively short and not difficult rappel canyon

Hydrology:

Access: (machine translated)
We leave the SS50 west of Feltre and immediately west of the industrial park and take the SR50 north. We go up for 11.4 km along the Fiume Cismon in the direction of Fiera di Primiero, finally through a long tunnel. Immediately after its exit we turn left and park at the trattoria.

Approach: (machine translated)
From the parking lot (470m altitude) we take the path across the Fiume Cismon and hike up the path to the hamlet of Pugnai (650m altitude).Continue on the path at about the same altitude in the direction WSW. The path leads to "our" stream (entry).

Tour: (machine translated)
After a short stretch in the stream we come to the first rappel (C15). At irregular intervals, 7 more rappels follow, then a slide brake with ladder (which can also be rappelled down). After that an (emergency) exit to the left is possible. There follows a C30 as well as a C7 down to the Fiume Cismon.

Return: (machine translated)
We cross the Fiume Cismon and walk upstream on the other bank to the car.
