<b>Summary:</b> (machine translated) Short forest canyon tour with 9 equipped abseiling points in a partly slippery environment.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) By car to Pöckau, orographic left directly at the Kokra stream, the road goes up 350m to the meadow parking lot at the last house.		
<b>Approach:</b> (machine translated) The map only shows the old way up anyway. First 50m along the pipeline to the east, then steeply up the cart track via a few hairpin bends. Past the electricity pylon and up another step. Then the path leads horizontally roughly southwards over the Kokra into the valley. Either descend shortly before, using a hand rope down the steep forest to the stream 50m, or up to the boulder wall and then leisurely in.		
<b>Tour:</b> (machine translated) From the boulder wall it is 250m to the first narrow section where you put on the neo. There are currently a total of 9 abseiling points. No waterfall is higher than 9m. You should only have 2x20m of rope with you, as the first double waterfall is rappelled in one. The watercourse has a good grip but is very slippery in places. At		
<b>Return:</b> (machine translated) 2min to the boulder barrier, before that orographically left onto the hill and follow the path to the car, 5min.

2025-06-26   Friedl Martin   📖   📖 ★★   📖 ★★   📖 Normal   📖 Completed Now all the waterfalls have been measured with the laser and a topographic view drawn. Now we also have a small forest/canyon gorge nearby. (machine translated)		
2025-06-19   Friedl Martin   📖   📖 ★★   📖 ★★   📖 Normal   📖 Completed We started the tour today, there are currently 7 abseiling points, probably 2 more to come, we took a tree to save time. (machine translated)
