Hydrology:		
Access: (machine translated) At the traffic circle at Locarno airport, where the 4-lane access road (coming from Bellinzona) to Locarno begins, head north towards the old Bellinzona-Locarno road. At the next traffic circle turn right onto this road and 850 m further on turn left to the school center in Riazzino. Turn right up the road in front of the school center and park the lower vehicle on the second parking level. Take a second vehicle back down, turn right at the school center and 330 m further on up the first road on the right. After two hairpin bends, you come to a crossroads which you follow to the right in the direction of Bugaro, Piandessio, Agarone. Before the bridge over the Pesta, we can park the second vehicle on the left.		
Approach: (machine translated) Go back along the road for about 100 m and then turn right onto the footpath towards Peross. On steps go up the vineyard; then the path walks towards the stream incision. We open (and close) a door in the wire fence and about 30 m further on we turn right from the path onto a path that leads us into the streambed. If you have only 1 vehicle available, the access to the top starts directly at the parking lot (then 40 min.).		
Tour: (machine translated) Sequence of easy rappels. Good to combine with the neighboring Cugnasco inferiore, Carcale or Tenero. Also feasible if other canyons have too much water flow.		
Return: (machine translated) After the last step, turn right out to the parking lot.

Automatisch importiert von Descente-Canyon.com für Canyon Pesta A bit more water than in the Eldorado Ticino book; no dangerous pools. With a goid team very nice in these conditions. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22500/observations.html>)

Automatisch importiert von Schlucht.ch für Canyon Valle della Pesta, Wasserstand: "hoch" Verankerungen: "gut" Wasserstand etwas mehr als im Buch Eldorado Ticino; für gute Canyonisten tolle Begehung bei dem Wasserstand :) ein paar Duschen garantiert, keine gefährlichen Pools; etwas Holz, das aber nicht weiter stört. Inspection as part of the "Meet, Work & Clean" (Bachab). Slippery in places. New anchors and traversese ropes set. Especially the last cascades are sporty at this water level. (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Pesta nice canyon, in the beginning of spring. Flow was high the last part is a bit more technical with this flow (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22500/observations.html>)

A little slippery. Blocked by wood in two places. On the first rappel of the final cascade, an anchor is somewhat hidden, we only discovered it in retrospect from the hanging position. (machine translated)

Nice thing for spring. Then lush green in color. (machine translated)
