Ania

Torrente Ania

Create: 2023-03-09 20:51:52	**Update:** 2023-11-30 11:58:26	**Print:** 2026-10-30 12:10:33
Country: Italia / Italy **Region:** Toscana **Subregion:** Lucca **Town:** Barga-Filecchio		
Difficulty: not as difficult	**Grading:** v3 a3 II	**Total time:** 2h
Approachtime: 20min	**Tourtime:** 1h30	**Returntime:** 10min
Altitude entry: 550m	**Altitude exit:** 450m	**Delta Altitude:** 100m
Canyon length: 900m	**Highest rapell:** 13m	**Amount rapells:** 6
Transport: on Foot	**Rock type:**	**Drainage area:** km²
Season:	**Orientation:** South	**Best Time:**
Rating: ☆ 3.6 (3)	**Info:** ★ 2 (1)	**Belay:** ★ 3 (1)

Specialities:

Gear:
Ropes: 1x30m

Summary: (machine translated)
Short canyon with some beautifully carved narrow sections.

Hydrology: (machine translated)
The water flow can fluctuate quite strongly. Sometimes at the beginning of April there is no more water flow (see my photos and video!), then after a short period of heavy rain there may be masses of water that make a descent in the canyon life-threatening, especially because of the wedged pieces of dead wood.

Access: (machine translated)
from Fornaci di Barga on the SR 445 through Filecchio:
https://www.google.com/maps/dir/44.0538243,10.5048059/44.043432,10.4817315/@44.0473948,10.4887248,1773m/data
see also photo gallery picture no.1

A conversion also seems possible according to the map at
https://www.openspeleo.org/openspeleo/misc/fndatabase/os_canyons/3/cart1/torrente_ania1.png, see
https://www.google.com/maps/dir/44.0538368,10.5047868/44.0604522,10.5200807/@44.0479379,10.4999051,3745m/dat
The access path to the river can be seen on the linked map.
However, with 2x18 min. duration of the conversion and an even longer walk, this is not worthwhile. After all, the difference in altitude is only 100m for access without conversion.

Approach: (machine translated)
see https://www.wikiloc.com/canyoneering-trails/torrente-ania-in-toscana-2046315
at the beginning of the access a shortcut would also be possible, see photo gallery picture 2

Tour: (machine translated)
See photos & video

Return: (machine translated)
Turn left before the black pipe that crosses the river. Now follow the pipe, which leads back across the river to the right bank. Follow the bank in a southerly direction to the parked car.

Coordinates:
Canyon End 44.0546 10.5069
Canyon Start 44.0640 10.5141
Parking Entry and Exit 44.0538 10.5049
Parking at Entry 44.0605 10.5201

Automatisch importiert von Descente-Canyon.com für Canyon Ania I assume the dam was opened after some rainy days. +/- 300l/s Last week it had been descended already by others. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21939/observations.html)

2024-05-12 | Clarissa Linder | |🕮 |⚓ | ≋ High | 📈 Emergency exit
Due to the high water level, the pool was turning at the first rappel/slide (white water up to the opposite wall, no more "calm" spots in the pool). When we got there, there was already a rope with an emergency abseil eighth hanging in the pool (someone had probably already had problems at this point before us...). After 2 attempts to traverse, ascent on the rope and emergency exit orographic left onto the path. Water level pictures of the entry are attached. The wedged tree trunks in the streambed were no problem up to this point, but are certainly to be enjoyed with caution at high water levels! (machine translated)
