Rating: ☆ 4.4 (29)	**Info:** ★ 2.7 (22)	**Belay:** ★ 2.8 (26)

Specialities:
Fun canyon, § Chargeable parking,

Gear:
Ropes: 2x20m (2x20m/1x40m)

Summary: (machine translated)
A very beautiful canyon with cold, emerald-green water; very well equipped; €7 for the private mountain road; the first section is easy; second section moderate, third section very long and challenging (watch the water level!); very beautiful and grippy gneiss and granite rock; most rappels are outside the main current, but the canyon is very aquatic overall!

A fun canyon reminiscent of a water park. Huge pools and plenty of opportunities for slides and possible jumps. Extremely well-secured and heavily frequented by commercial groups.

Hydrology: (machine translated)
Webcam with water level: http://www.valbodengo.com/d/phone/webcam.html

Access: (machine translated)
To use the private road leading to the parking lot, you must pay €7 at the ticket machine (located directly on the road at the edge of town) (via QR code or online payment with a credit card).
You can purchase the ticket online in advance here:
https://valbodengo.shop/

When you reach the village of Gordona, drive toward the church --> then turn right at the church and go up a short hill --> turn left at the fork --> then take a sharp right-hand bend (at the fork) and go uphill --> at the next fork, turn left and go uphill --> follow the road (toward Pra Prince) --> at approximately 820Hm, before a sharp right-hand bend, there is a a parking lot on the left --> park here --> after about 50 meters, you'll see a "No Motorcycles" sign (on the left) with trail signs for "Mulattiera per Bodengo" and "Strada Carrozzabile per Bodengo" (this is the path leading up from the bridge/the return route).

Approach: (machine translated)
From the parking lot up along the road you get to the entry to the 2nd part --> before the small mountain village on the left over the road bridge of Bedolina (signposted parking lot Bedolina) (entry at about 870Hm).

Tour: (machine translated)
Walking and climbing passage about 50m. Short swimming section. Walking and climbing passage approx. 50m. Slide 3m or jump 3m. Short swimming section. Walking, climbing and swimming passages ca.100m. left. single bolts to the traverese rope. From the traverese rope R10 (left) + jump 5m or rappel 15m (left) After the pools emergency exit (nr.9, orange sign) left. glued anchor for belaying to the belaystation left R15 (left) (rope retrival from big boulder possible) The canyon narrows. Short swimming section. Walking passage approx. 100m. Pass large boulder. Emergency exit No. 7 (left) + small inflow from the right at the abseil point R18 (right) (at the 18m only with little water jump (or slide) in deep hollowed pools possible, as an exit facilitation is at the edge of the pool on the right a single piton where a rope can be attached). Siphon (can be bypassed on the right). Jump into large pools with a small swimming section. Emergency exit no. 6. walking and swimming passage. Climbing passage ca. 200m in open canyon. 2 small tributaries left. Narrowing canyon with overflowing boulders. Climbing and swimming passages about 80m. Emergency exit no. 4. very nice passage R10(r.) in pools. r. climb up via fixed ropes. Jump or downclimb in large pools ca. 5m. Walking and climbing passage ca. 50m. Emergency exit No. 3. 50m walking and climbing passage to short narrower gorge section. R15 (left) exit on rocky ledge or in current + short swim. Walking passages to the next rappel point R8 (right) can be bypassed on the left and downclimbed. Flat walking and climbing passage. Short swimming section in small pool. Single pitons on the left for belaying to the traverese rope or rappel on the right via glued anchors into hollowed pool and to the traverese rope over the current + R8 or S8. Short swim and downclimb over smooth polished rocks. Walking and climbing passage over granite boulders about 100m. Emergency exit no. 1. rappel left. 5m over fixed ropes. Large pool. left. single glued anchors for belay to belaystation. From chain anchor R10 (left) or S10 into large pool with current. r. climb over fixed rope onto large boulder.short rappel over fixed rope to belaystation R8 (right) or S8 (or S12 from above) short swim. Bypass large boulder on the right. Short climbing passage and jump from boulder into pool. Short walking passages approx. 50m to the last rappel point R10 (left) (rope ferry advisable in case of much water). Short swimming passages to the meeting with the Pilotera (stone bridge) (approx. 730Hm).

Return: (machine translated)
At the inflow of the Pilotera (approx. 730Hm) turn left up the trail steeply to the road and right back to the parking lot.

Although all the valves feeding Bodengo were open, all three sections are still doable. The water level is definitely quite high. The first two sections go well, without too many significant hazards. In the third section, the flow increases a little further, but everything can still be descended cleanly. There are a few spots with strong water movements where the current pushes hard against the rock/wall, particularly at the 25 m slide. Despite the strong flow, the slide goes well. That said, these conditions require caution. You need to be experienced with strong water movements, have good water-reading skills and solid canyoning experience before entering the canyon at this level. A special thanks to Pascal Van Duin for his friendly experience sharing and his help in our canyon trip! Cheers mate!

2026-10-02 | pascal van duin | ☆ ☆ ☆ ☆ ☆ |🕮 |⚓ ★ ★ ★ | 〰 High | 👎 Not done
From Sunday afternoon 4th October all water captures will be open releasing full natural flow in Bodengo 1-2-3 and Pilotera. Duration approximately 2 weeks for the ongoing maintenances. Canyon will be probably not possible due to too high water levels.

All the anchors are in good condition. The wet, brown rocks are slippery. The gray rocks offer much better traction. In one spot, two trees have fallen into the canyon, and their branches are blocking the path underwater. Be careful not to get stuck. (machine translated)
