Specialities:

Gear:
Ropes: 1x30m

Summary: (machine translated)
Short rappel canyon, only slightly incised, mostly without water flow

Hydrology:

Access: (machine translated)
From Huesca on the A 132 directly or N 330/N 240 via Jaca to Puente la Reina de Jaca. From here, continue for 26 km on the N 240 towards Pamplona, then turn right and head north into the Valle de Roncal (Roncal, Isaba). 14 km after turning into the Valle del Roncal you reach the small town of Burgui. About 600 m before reaching Burgui, you will see a small house on the left, slightly below the road. Immediately afterwards, you cross the Arandari, which is barely recognizable. About 400 m further on you come to a large parking area to the right of the road, where we park our car.

Approach: (machine translated)
From the car, continue for about 70 m in the direction of Burgui, then take the clear path that leads uphill to the left. At a fork in the path, we keep left and soon reach the streambed.

Tour: (machine translated)
5 rappels, interesting the natural arch at the exit of the tour.

Return: (machine translated)
After the last rappel, continue along the streambed and directly out onto the road at the bridge, then left to the car.
