<b>Summary:</b> (machine translated) Short but beautiful swimming passage in the Mitterweißenbach. Is desöfteren also driven by kayakers (but they do that in the spring when there is a lot of water). For canyoneers, however, the passage is only safe at low water! There are several anchors and fixed ropes to (partially) avoid the critical spots. At higher water levels not safe!!!		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) By car on the Westautobahn exit at Regau, just before Bad Ischl a road branches off in the direction of Weißenbach am Attersee. Follow this road for about 4km until you see a parking lot with a small chapel on the left side of the road. Park here.		
<b>Approach:</b> (machine translated) Descend at the bridge over the Höllbach.		
<b>Tour:</b> (machine translated) With the help of two fixed ropes you descend into the Weißenbach. After swimming through a few pools, you reach a 2m jump. After that, a short walking section is followed by a 3m slide and again a few pools.		
<b>Return:</b> (machine translated) Get off on the left side and hike back on a small trail along the canyon.

Water level well feasible, fixed ropes available, but not absolutely necessary. (machine translated)

Kayak section for swimming down. There are good stands in front of the waterfalls to swim to and jump over the whitewater elements. Pools were all deep and free with me. (machine translated)
