Summary: (machine translated)
Short, watery gorge with attractive slide

Hydrology:

Access: (machine translated)
From Nice, take the N 202 up the Var for approx. 29 km to Plan-du-Var. Shortly after this village, turn right onto the D2565 into the Vesubie valley. 14 km after the turn-off you reach the hamlet of Le Suquet. Park your car here.

Approach: (machine translated)
Return on the D2565 over the Vesubie and 200 m further on, at signpost no. 127, turn left up into the Vallon de l'Infernet. The path climbs 250 meters in altitude, then runs horizontally on the wooded slope above the canyon into the valley. After about 40 minutes (10 minutes after the start of the horizontal part of the trail), you come to a path junction on the left downhill (signpost for entry). Here we descend to l'Infernet.

Tour: (machine translated)
After an open river section, you come to the gorge with small jumps or rappels. The highlight is a 12m slide, which can be climbed again on a fixed rope.

Return: (machine translated)
At the confluence of the Infernet and the Vesubie, wade through the river and quickly reach the car on the other side. If the Vesubie is carrying too much water, you can follow the footpaths on the left to an overgrown forest road which, after a short climb, leads to the access path (10 min).

Everything's fine. Very short canyon; the slide is pretty nice. The canyon narrows toward the exit—it's an impressive canyon. (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Infernet Débit un peu plus sportif avec les derniers orages mais encore faisable à remontée (seul le tout premier passage est un peu galère pour choper la corde) . Eau laiteuse, c’est bcp moins jolie et le soleil ne tape pas du tout dans le canyon l’apres midi. On était seul et on a quand même bien profité :) RAS sur le tob (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2225/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Infernet bien trop court mais quel régal d'y être seul, une pépite. On a pas eu droit au soleil quel dommage, car la couleur de l'eau est paradisiaque. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2225/observations.html)
