Summary: (machine translated)
Forest canyon with attractive steps at the exit, exit via the river Guiers Vif.
Attention (!): when crossing the Guiers Vif, check the water flow at the exit of the gorge, as the exit is via this river.

Hydrology:

Access: (machine translated)
From Grenoble to the parking lot for the early exit from Guiers Vif siege google maps under links, as well as to the conversion to the parking lot for access

Approach: (machine translated)
From the parking lot in the forest near the hamlet of Rousses after the bridge, access via the orographic left slope.

Tour: (machine translated)
See photo albums and videos under Links

Return: (machine translated)
We did not walk the Guiers Vif integral to the exit, but went up to Crost, Gerbaix. To do this, after the Schleierfall, continue over the dark rock face from the left for about 80m and then turn right after the sandbank onto the clear path. Blue signs on the tree, see photo albums.

Automatisch importiert von Descente-Canyon.com für Canyon Rousses Un petit filet d'eau coule au départ.....En rentrant de Chartreuse pour du travail, je suis allé voir le départ. Si votre véhicule fait plus de 2m de haut , prenez une scie , il y a une branche d'arbre en travers un peu après le début de la petite route qui mène au départ.
