Summary: (machine translated) Relatively open rappel canyon through the red granite rocks of the calanque.		
Hydrology:		
Access: (machine translated) From Porto on the west coast we take the D81 in the direction of Piana, Cargese, Ajaccio. After 7.2 (from the bridge in Porto) we come to a prominent left turn at the "Tête du Chien" with a large parking lot and information board. Here we park the car.\nIf we have 2 cars available we drive - otherwise we walk - 2 km further on the winding road and then park the second car just after the bridge over the stream.		
Approach: (machine translated) On the SE side of the bridge - Pont de Cavallaghiu - down into the streambed.		
Tour: (machine translated) In the open streambed to the water drainage, then the C30. Then again a longer walking passages with some places to downclimb, before we come to the highlight. Here the creek deepens about 30m, the rappel, mostly in the open slope, take place under large trapped rocks. Direct rappeling after the clamping blocks is also possible. A little later another nice rappel (C20). A varied descent with slides and jumps follows.		
Return: (machine translated) At the confluence of the streambed that comes down to the right of the Auberge des Roches bleues (cairn at the exit), a path leads up on the orographic left side of this dry streambed (seen from below at the right foot of the slope) and meets the D-81 not far from the Tete du Chien. This path - discovered by me by chance in 1997 - is pleasant, evenly rising and mostly shaded. In the book Corse Paradis du Canyoning a difficult way back - pathless up the opposite, well sunny, slope - is described. On page 79 (No. 14) in the printed map section, however, this footpath is also marked. In the meantime, this way back can also be found in the book by Jourdan/Fiorina.
