**Specialities:**

**Gear:**
Ropes: 2x30m

**Summary:** (machine translated)
Beautiful, very varied jump and rappel gorge. Power station above and at the end of the canyon; slippery; the tributary before the last rappel point can prevent entry into the tour (water hazard). You can control the amount of water in the tributary from the main road (in the first haipin bend after the gallery above the Heroes' Cemetery); lots of wood; limestone.

**Hydrology:**

**Access:** (machine translated)
From Kötschach-Mauthen drive in the direction of Plöckenpaß --> drive up the winding pass road and park the 1st car at the Hydrosolar parking lot --> continue up the pass road with the 2nd car until you reach Plöckenhaus --> park here at the large parking lot opposite.

**Approach:** (machine translated)
From the parking lot, walk across the meadow past a large tree towards the forest --> at the edge of the forest, climb over the fence (barbed wire) and descend via a narrow path into the stream --> entry at about 1240m.

**Tour:** (machine translated)
At the beginning, a few short slides and climbing passages follow each other (partly also abseiling possibilities) --> further short abseils follow, partly twisted/blocked by wood --> after an inflow from the left follows the last and highest abseil (30m) --> at the end you still have to swim through the reservoir.

**Return:** (machine translated)
At the end of the reservoir exit right somewhat laboriously over a footbridge and ladder --> right over the dam wall to the footpath --> follow this to the parking lot at the Hydrosolar power plant (1st car).
