Specialities:

Gear:

Summary: (machine translated)
Long stream with 2 gorge parts (very top and middle).

Hydrology:

Access: (machine translated)
At Idrijska bela river up to the power station at Idrijca creek (exit).

Approach: (machine translated)
Follow the road along the river. You will get to the part where the road is broken (big hole) and then to Idrijske klavže (old dam). There you enter the lower part of the path. It is also possible to walk along the path at the bend in the river and go through the upper part of the canyon, but in July 2014 there was too much wood everywhere.

Tour: (machine translated)
Beautiful jump immediately below Klavž. Then walk 1km to the turn and then into the canyons. Short rappel into the hole and immediately after a 3m jump. After the rappel into the waterfall and beautiful 6m slide (makes a bend left). Then 2 rappel into the waterfall and a few jumps, but generally a lot of walking.

Return: (machine translated)
Get off again at the power plant.
