| Summary: (machine translated) Rappel canyon, 3 high cascades | | |
| Hydrology: | | |
| Access: (machine translated) From Varese on the SS394 heading WNW, you will reach Cittiglio after 17 km and about 20 minutes. First head for the center of the village and from there head north following the signs for "Parco delle Cascate". Park at the exit of this access road. However, there is more space in Piazza degli Alpini, which is directly east of the town center. Bridge over the Torrente S. Giulio. If you have one, take a second car back to the center and from there take the SP 8 up the orographic left slope of the watercourse towards Vararo. About 3.5 km from the town center, the road reaches the stream near a restored mill. Park the second car here. | | |
| Approach: (machine translated) In the streambed or initially on the right above to the first steps. If you only have 1 car available, you can also take a footpath, finally via the access road on the eastern edge of the watercourse to the entry to the uppermost waterfall (approx. 50 min.). | | |
| Tour: (machine translated) A succession of three large, sometimes multi-level waterfalls, which can also be connected by using the hiking trails there. 01- C4 (1 sx) 02- C5 (1 sx) 03- C5 (1 sx) 04- C6 (1 sx) 05- C50 (2sx + 2 sx) 06- C10 (2 sx) 07- C15 (2 sx) 08- C23 (1sx + 2sx + 2 sx) 09- C44 (2dx + 2 dx) 10- C4 (2 sx) 11- C15 (2 sx) 12- C45 (2 sx) | | |
| Return: (machine translated) After the third large cascade on the footpath, then on the road to the lower car. | | |
