Automatisch importiert von Descente-Canyon.com für Canyon Fillière Chouette découverte, on s'attendait à un canyon sec et au final toutes les cascades sont sous eau (orage de la veille ?). La progression lors des (longues) marches se font avec de l'eau jusqu'aux chevilles. On a remplacé l'anneau de corde de le 3ème cascade (celle où il y a la grotte). Beaucoup d'arbres dans le canyon et d'embâcles à éviter. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21374/observations.html)
