Walked after a lot of rain. Some water at the start, then dry. Partial rappel from trees. High waterfall is very good from the anchors. (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Chasau Encore une mission dans Chasau ! Partie amont en petit débit correct très agréable mais partie aval sèche quelques dizaines de mètres sous la route (quelques pataugeoires quand même). Pas de glace mais blindé de neige (mini crampons bien utiles), j'ai dégagé quelques lunules dans la partie amont. Équipement encore en bon état mais quelques lunules pourraient être changées.Retour au parking amont en remontant la combe de Chenevoye en entier, une énorme bataille dans la neige, piolet et mini crampons grandement utiles..
