Summary: (machine translated) Raw data import from Ropewiki https://ropewiki.com/Gorges_Myst%C3%A9rieuses Short canyon between Chamonix and Martigny. Do not go in there in summer, there is a huge water catchment that can open at any time (even in the fall, but once it gets cold the risks are no longer so high). (machine translated)		
Hydrology: (machine translated) Attention, very large water catchment above.

Tour: (machine translated) First a few "normal" rappels, and a few jumps. Then it gets very dark as you go under the big blocks, sometimes the jump goes into the dark. After that, not quite as continuous.
