<b>Summary:</b> (machine translated) Raw data import from Ropewiki <a href="https://ropewiki.com/D%C3%BCrrenwaldbach">https://ropewiki.com/D%C3%BCrrenwaldbach</a>  Quite well hidden canyon, as it exits 300 meters above the level of the main valley. Therefore, it is more convenient to park at the exit of the canyon. It starts with small open waterfalls and gets more and more interesting. The best part is the 50 m high waterfall, which looks very spectacular from above. Be careful, the rock is sometimes not very stable. (machine translated)		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) Park at Bärtscheli.		
<b>Approach:</b> (machine translated) The first rapel is not so exciting, it is probably best to take the hiking trail down to the stream.		
<b>Tour:</b> (machine translated) First open passages, and then a 60m waterfall that rushes down into the hole. After that there are 2 more cool rappels.		
<b>Return:</b> (machine translated) Back over the scree to the hiking trail. And then up to the car.
