Specialities:

Gear:

Summary: (machine translated)
Glacier mill hike with some rappel; also suitable for beginners

Hydrology:

Access: (machine translated)
Take the A 13 past Chur in the direction of San Bernardino. 6.8 km after the freeway exit Chur-West (No. 17) the freeway double lane forks and we take the right lane in the direction of Flims, Disentis. We drive 17.5 km steadily uphill and then turn right before the tunnel to Trin (880 m above sea level). From here we drive in many serpentines up the partly narrow road/piste to Alp Mora. At 1900 m a.s.l. the dirt road forks again (straight ahead to Alpe Tegia Sut, in the angle to the left further up to Alp Mora). Here we park the car.

Approach: (machine translated)
We continue up the slope to the left. At the second leftward haipin bend at elevation 1975 m a.s.l., we follow the signpost to the "Glacier Mills" in the direction of ONO. We approach the streambed and at altitude 2120 the trail reaches the streambed. From here you can still walk up the stream to the head of the valley and there about 20 meters of altitude up the meadow slope.

Tour: (machine translated)
Especially at the beginning beautifully polished glacial mills. Great scenic. Rich flora. Some slope ropes.\nFor the ascent from Trin to Alp Mora toll is payable (10 CHFr - 2010). Payable in the municipal office - basement, door on the left - knock !)

Return: (machine translated)
At the stone bridge, go out to the right and follow the indistinct path in a westerly direction, slightly ascending over the Alpe Tegia Sut (1945 m a.s.l.) back to the car.
