| Summary: (machine translated) Open rappel canyon | | |
| Hydrology: | | |
| Access: (machine translated) Leave the A 41 (Chambery - Grenoble) at exit 23 (Touvet/Goncelin), then take the D 29 westwards for a few hundred meters in the direction of Touvet until you reach the D 1090. Head north on the D 1090 for 500 m and then turn left onto the D 9 and up to St. Vincent-de-Mercuze. Continue north to the bridge over the Alloix and the immediately adjacent village of Montalieu. In the village, take the first road on the left, which leads up to the next plateau (Les Prés). At the first rightward haipin bend approx. 400 m after the village, park the lower vehicle (information board). Take the second vehicle and continue up a left-hand serpentine until you approach the Alloix valley again. Park the second vehicle where the road bends to the right (below an electricity pylon). Even without a second vehicle, you can reach the entry point in 50 minutes via footpaths close to the stream. | | |
| Approach: (machine translated) A path leads along the meadow in a WSW direction to the stream. | | |
| Tour: (machine translated) Various types of rappel, clear water, some jumps and slides possible; you can almost always get out on the path near the stream. Good to combine with Infernet. There is a prohibition sign near the village, but according to its wording, this is primarily intended to exclude the municipality's liability for any accidents. In addition, it was repealed by the Grenoble Administrative Court in 2001 (see descente-canyon.com). | | |
| Return: (machine translated) Exit at the suspension bridge and follow the path (orographic) left down to the lower vehicle. | | |

Automatisch importiert von Descente-Canyon.com für Canyon Alloix Débit agréable et correct.Grpe de 4. On s'est garé au pk du bas et nous sommes remontés au départ. Au début bien prendre la route avant de récupérer le chemin tracé en jaune sur la gauche (env 400m),ensuite les infos sont très claires sur descente canyon.Amarrages ok, MC quasi obligatoires de partout pour un bon accès aux relais, le sol glissant rend parfois l'accès délicat.Attention en effet, ça glisse de partout !On a bcp manipé pour les MC et la gestion des frottements est essentiel. Mais une très bonne sortie avec cette chaleur on était bien ! (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2116/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Alloix Débit top pour descendre le canyon. Ne pas hésitez à mettre le sac pour la C43 sinon ça frotte bien.Ca chauffait bien à la montée la température extérieure montait bien donc idéal à faire le matin. Amazing in high flow! Just make sure you bring a good team and the right gear. Not for everyone. I added some photos for water references
