Second round, we took out many fixed ropes, rusty quicklinks and replaced with inox quicklinks + rings instead, doubled a few anchors, removed one or two that was badly placed (hollow rock or too near the water) etc. Just a few more fixed ropes to take out for the next team.

Nice surprise. Especially a few abseils, we chose the active lines, but from on top you don't know what to expect really. Drilled a few anchors, even chose to change some lines. The first one, for example, at the landslide (abseiling via a tree), we now have a new abseilstand on the right bank (no rope friction, not exposed, on good rock), whereas the old one is hard to reach. Unfortunately quite a few fixed ropes that need changing (or also cut the ropes and just add quicklinks) a few more renewed anchors would be welcome. Early approach is enjoyable, only the last part is without trail and uneasy. Beautiful & in the sun this time of year

2025-07-20 | Harald Gunz | ☆ ☆ ☆ ☆ |🏳 | 🗘 ★ ★ | 🏯 High | 🖒 Completed

Beautiful canyon with water flow. All installations in order. Did not rappel the first high waterfall in the jet. Some rappels could be dangerous with a lot of water. Partly slippery. (machine translated)
