Summary: (machine translated)
Rappel canyon, dry

Hydrology:

Access: (machine translated)
We start in Valderrobres on the bridge over the Río Matarraña. First we drive west on the A-231 for about 500 m in the direction of Horta de San Joan, then we turn off at the large traffic circle onto the A-2412 and now drive south. After 6.2 km we arrive at Beceite. Here we follow the signs "La Pesquera" or the Camino of the same name and arrive on a dirt road in the valley of the Río Ulldemó.\nAfter 3.1 km (from the center of Beceite) we arrive directly at the river at the signpost "PR-TE 151 Peñagalera" to a small parking bay, where we park our car.

Approach: (machine translated)
We follow the signposts through the river to the northern bank and follow the well-marked path uphill. After about 50 minutes we come to a first saddle. We cross a rock bar and come to another saddle. We continue to follow the yellow-white or yellow markings. We now walk along the orographic right edge of a wide hollow. At a suitable point we descend on sight into this barranco.

Tour: (machine translated)
We come to the first 3 rappels, then a side barranco comes from the left. The route now descends in gulps until the next rappel, now already in a narrow barranco. This is followed by a run in the canyon, which is now open again, a few more rappels and then the highlight.
We first abseil 12 m into the huge cauldron below us to a vertical belay on a ledge. This is followed by the 45 m rappel in the "Gran Circo". After 2 more rappels we are at the bottom.

Return: (machine translated)
We walk downstream, enter the streambed of the Río Ulldemó and walk in it until we reach the car.
