Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:
Ropes: 2x 35m

Summary: (machine translated)
Very nice view of the entire coast.

Hydrology: (machine translated)
The canyon is dry and therefore accessible all year round. However, this tour is only attractive after a long period of rain and when there is at least enough water.

Access: (machine translated)
Via the D 2210, about 3 km east of Pont du Loup or 5 km west of Tourrettes-sur-Loup, leave the villas and park at the first sharp left turn (parking lot downhill). At this bend there is a path with a barrier.
Continue towards Domaine des Courmettes, a private property with authorized access, and after passing a farm, park in the parking lot of the Domaine.

Approach: (machine translated)
Follow the path 250 m further towards flat terrain, pass two hairpin bends so as not to cross the fenced meadow; the path crosses the valley immediately afterwards.

Tour: (machine translated)
It is best to descend between the meadows and the valley, then continue through the valley or along its banks. A C10 without protection (shrub on the left bank), then another slightly unpleasant part. A C8, then it quickly enters the gulches, and there it gets much better: the waterfalls follow each other closely, nicely on grippy rock. The C35 is interrupted by a good belay on the left bank.
Vegetation in the first part.
Very nice view of the entire coast.
The equipment is outdated in terms of ropes, slings and carabiners. The anchors, however, are excellent

The lower parking lot only has space for two to three cars.
Keep a low profile.

Return: (machine translated)
A few meters behind a beautiful C15 chute, a good path cuts through the valley. You should leave the valley here, even if you can still see some small waterfalls below. Follow this path to the right, which crosses the Camplan valley, descends a little and finally leads to the car.

Automatisch importiert von Descente-Canyon.com für Canyon Clare Une belle surprise, début pourri puis quand le 1er rappel arrive ça s’enchaîne bien et c’est sympa . Encore mieux avec plus d’eau bien sûr . Équipement nickel (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/20477/observations.html)
