Summary: (machine translated)
Aquatic fun canyon

Hydrology:

Access: (machine translated)
From Nice via Cagnes-sur-Mer to Vence (approx. 25 km). You leave Vence in (northwestern) direction Col de Vence on the D 2. About 2 km after the end of the village, before a left serpentine, a small road turns off to the right (Route de Riou), which leads to the karst springs at the exit of the canyon. You park a vehicle in front(!) of the place where a sign permits the driving only for residents ("defenser de circuler sauf riverain") - if you do not want to experience an unpleasant surprise at the exit of the tour!

Approach: (machine translated)
We continue along the slope, pass the karst spring outlet and enter the riverbed of the Cagne. Continue uphill on a path on the orographic right bank, passing the springs and now partly climbing a bit, until we reach the riverbed again. In this upwards until the river has no more steps.

Tour: (machine translated)
First many steps, mostly suitable for jumping, then the imposing narrow passage after the springs.

Return: (machine translated)
After the final narrow section, turn right out onto the access path and return to the car on this path.

Automatisch importiert von Descente-Canyon.com für Canyon Cagne (partie aval) Approche depuis le parking du Plan des Noves avec le GR51 en 1h15. Descente du canyon en 2h30 sans traîner. On n'a pas sorti la corde. De très beaux passages mais avec quand même beaucoup de portions marchées. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21308/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Cagne (partie aval) Derniers 500 mètres parcourus, bel environnement, succession de beaux passages avec grandes vasques et sauts multiples au milieu des baigneurs/sauteurs.Un promeneur a lourdement chuté de 3 ou 4 mètres du petit chemin escarpé sur la rive droite, intervention des secours et d’un hélicoptère. Bonne rémission à lui. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21308/observations.html)
