Specialities:

Gear:
Ropes: 2x 30m

Summary: (machine translated)
https://www.descente-canyon.com/canyoning/canyon-carte/23028

Combine this tour with the descent through the neighboring canyon "Ravin du Dégoutoir".

Hydrology: (machine translated)
To be carried out after heavy rainfall.

Access: (machine translated)
Coming from the north, leave the highway at Sisteron Nord and then head towards Sisteron.
Coming from the south, leave the highway at Sisteron center, continue on the road towards La Motte du Caire and turn left (Sisteron) over the bridge of the Durance, then right.
From the bridge over the Buëch, take the D948 in the direction of Ribiers.
Turn left immediately after the waste collection point; 5 km from the bridge over the Buëch. Turn left before the "OvinAlp" factory. Drive to Les Chabanons, good parking spaces are on the left. Same parking lot as in Dégoutoire.

Approach: (machine translated)
Continue along the tarmac road. About twenty meters after the last canyon on the left, take the path on the left (downhill) that crosses the Dégoutoire canyon. Walk along the top of the meadow until you reach a wider path, which you follow to the exit. Continue roughly straight ahead on small paths that will quickly lead you to the right path. Towards the exit, at the height of a rocky outcrop and a 90° left turn, leave this path and take a smaller but well-marked path that leads to the starting point of the route.

Tour: (machine translated)
Two or three small ledges, C8 on chain, some descents, C4 on AN, some more small descents, C20+C10 (2x30 mini). 2 belays: left bank: 1 friable point + one bolt without slab; right bank: 1 acceptable single point. Some small ledges lead to the confluence with the canyon of Dégoutoire. Continue for about a hundred meters on a good path on the left bank, first uphill, then on a wide path and finally on a slope. Same exit as Dégoutoire.

Return:

Coordinates:
Canyon Start 44.1936 5.8846
Canyon End 44.1968 5.8823
