The access is a very easy to walk hiking trail with a superiore view of the valley (Lauterbrunnen), the Swiss mountains and the Mättlibach stream. The Rybi canyon is only visible from the hiking trail at second glance: The high waterfall of Canyon Mättli attracts everyone's attention. Unfortunately not so nice for canyoning at the moment, but if you need wood for the next 10 winters, you've come to the right place! Anchorage mostly 1x old and 1x new. Lots of wood in the canyon. Especially before the 50 and in the open part directly after the 50. The last places under the railroad lines better (machine translated)
