Canyon length: 400m	**Highest rapell:** 20m	**Amount rapells:** 2
Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Simple canyon, with little water, to start and to combine with some other canyon in the area.

Hydrology:

Access: (machine translated)
On the C462 between La Seu d'Urgell and Sant Llorenç de Morunys.
At p.k. 27.2 we have the detour to the Pedra. We will go up and past the church we can park, we can also continue along the track a few hundred meters and park.

Approach: (machine translated)
We will leave along the trail, which crosses a stream and heads towards the headwaters of our stream and the coll de Jou. When the trail approaches the riverbed, it will be time to get in

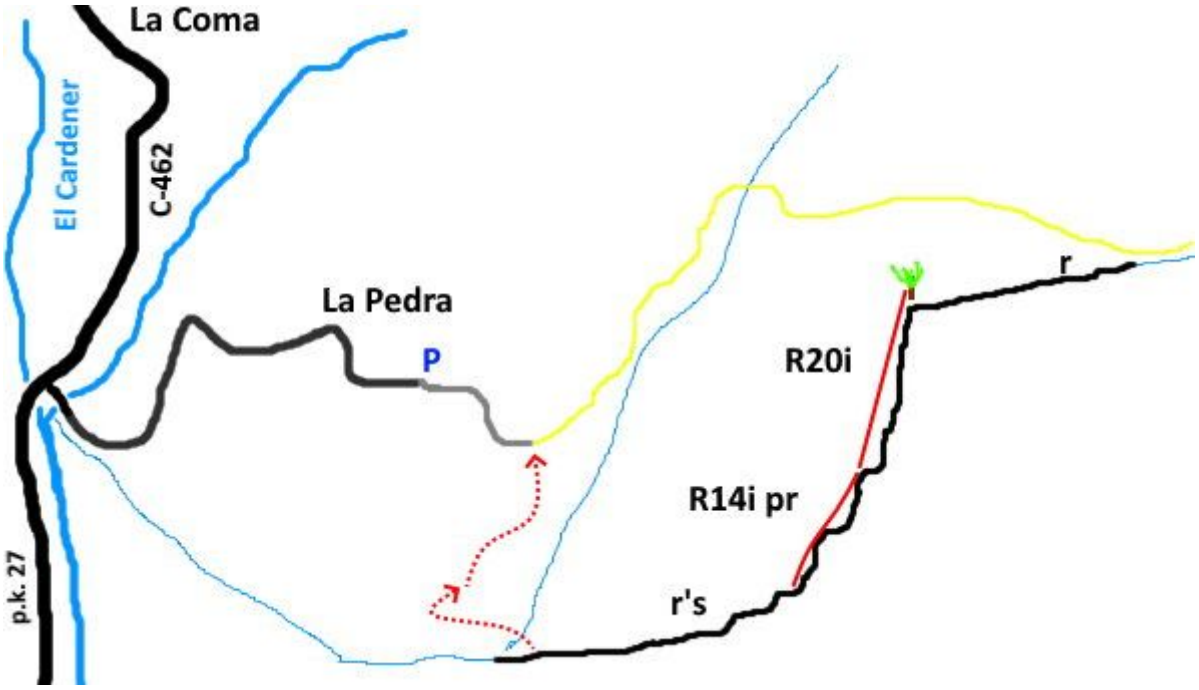

Tour: (machine translated)
Very simple, a few skills approach us to the vertical. We will look for the installation in a tree on the left, when we reach a small ledge, we will see the next installation in a rock bridge. From here we will find a few skills to pass a landslide and soon a path to the right that takes us up to the village.

Return: (machine translated)
Along the aforementioned path
