Country: España / Spain **Region:** Santa Cruz de Tenerife **Subregion:** **Town:**		
Difficulty: difficult	**Grading:** v5 a1 III	**Total time:** 4h5
Approachtime: 35min	**Tourtime:** 3h	**Returntime:** 30min
Altitude entry: m	**Altitude exit:** m	**Delta Altitude:**
Canyon length: 1400m	**Highest rapell:** 80m	**Amount rapells:** 10
Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Dry canyon, with two parts, upper and middle, in a unique environment. The second part requires requesting permission from the cabildo and is best done with a combination of vehicles.
Request permission at the cabildo

Hydrology:

Access: (machine translated)
Bcos Adeje area
Located in the south-west of the island, between Guía de Isora and Adeje.
Bcos Erques Sup and Med
By the TF82 between Guía de Isora and Adeje, at the height of p.k. 45 in Tijoco, we have the detour to the TF585 towards Tijoco Alto. On this road we will go up to the hamlet and once there we will go up to the new tank where we will park the access vehicle.
The return vehicle from Tijoco Alto instead of turning right we will go left about 500m to the end of the road.

Approach: (machine translated)
Bcos Erques Sup and Med
After the reservoir we have a trail that crosses the water ravine and turns NE to climb the Lomo de Carmona over the Erques ravine. From this point with magnificent views we have a path somewhat exposed that descends to the riverbed (exit of Erques superior).

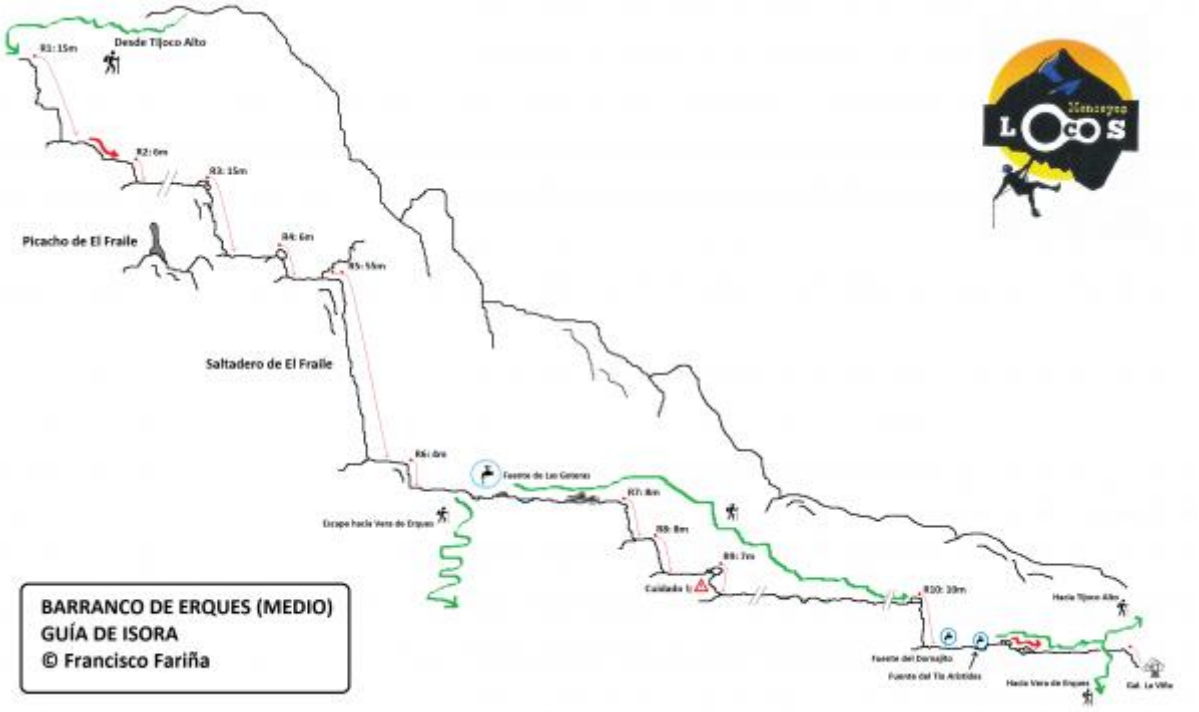

Tour: (machine translated)
See mole

Return: (machine translated)
After the Goteras fountain we will have an area of few difficulties that takes us to two fountains, Dornajito and Tío Arístides, here we will find the path that joins Vera de Erques and Tijoco Alto, we will take it to our vehicle.
