From the campsite (Fort Vancouver) left to the large signpost --> here the path up towards Polinikfall --> after approx. 500m at the bridge left steeply up on the path --> always in sight of the deep canyon --> continue until you reach an old path --> keep right until you reach the entry at approx. 1120Hm.

**Tour:** (machine translated)

The canyon offers a very varied program of rappels from start to finish --> belays are in good condition --> many short rappels in the water --> mostly slippery even at the belay --> little sunlight --> problematic at the narrow points when there is a lot of water (check the water level at the exit on the high wooden bridge) --> the highest rappel point comes almost at the end and is usually outside the water flow (!! Sharp edge) --> to master short rappels more effectively, you should not do without an additional rope.!!! sharp edges) --> in order to master the short rappels more effectively, an additional shorter rope should not be dispensed with.

**Return:** (machine translated)

After the last large and the 2 small rappels, you leave the canyon on the left onto a hiking trail, then (right) again through the stream and past the wooden bridge until you reach the access path back to the campsite/parking lot.
