Ropes: 2x 20m

Summary: (machine translated)
A few slides, a C12.

Hydrology: (machine translated)
Weak engagement, the road is never far away.

Fairly generous flow, especially compared to neighboring canyons.
In the afternoon in the sun.

Access: (machine translated)
From the A10 Ventimiglia-Genoa highway, take the Arma di Taggia exit. 2.6 km after the toll booth, turn right onto the SS1bis highway in the direction of Imperia-Taggia. At the exit of this expressway, at the traffic circle, head towards Taggia-Triora. Take the road on the right that leads to Glori (Balsaire) and then the road that leads to Grattino (Boetto) and turn left onto a small road towards Gavano. Park 400 meters after the bridge over the Argentina in the good parking spaces on the left.

Approach: (machine translated)
Follow the road that overlooks the river to the bridge that spans it.

It is possible to organize a small shuttle service...

Tour: (machine translated)
From the beginning a T5 (to be probed), a C12 without equipment (tree very high RG). From the march, a C5 and some very small passages lead to a depression not visible from the road. A T8 to probe or rappel RD with a rappel, then the T5 to jump or slide. Under the bridge a C3 to jump, then a narrow slide.

Return: (machine translated)
At the height of a left-hand bend and about 200 m after the bridge, leave the left bank of the river and turn off onto a path that very quickly leads to the road.
