The entire canyon was done comfortably in 8 hours, including 40 minutes walk back to the car (along the pipe, one person only without pack). However, we saw hardly any option the quit in the middle. There might have been a path, but concerning the height of the valley, and the amount of bushes, I would not count on that, so all or nothing. The other problem: the climb up from the big pool. This we estimated cca 15m, there was a just enough length of fixed rope, but if the water level was 1 meter lower, we'd probably still be floating there... Take it seriously, there's no dry spot to escape to, absolutely out of question the climb out anywhere else, and no signal either. If got stuck, your only hope is someone waiting for the group outside. Picture 1: The climb seen in the distance. It's more scary from here than at the bottom. Picture 2: Back from the top. No dry land down there. Otherwise amusing, not counted the long walking sections.
