Summary: (machine translated) Forest gorge, ending in a dark gorge		
Hydrology:		
Access: (machine translated) Leave the Italian A 10 (Genoa - Nice) at the Arma di Taggia exit (about halfway between Imperia and Ventimiglia). Then take the SP 548 up the valley of the Argentina towards Triora. After 8 km we pass through Badalucco, 12 km after that, just before the village of Molini di Triora, we turn left onto the SP 65 towards Colla Langan. We cross the Argentina and 2 km after the turnoff we reach the first leftward haipin bend, where we park the car.		
Approach: (machine translated) From the road bend we take the footpath that leads in a northerly direction over the Argentina slightly ascending to the dilapidated (2012) footbridge over the Grognardo. Get on here.		
Tour: (machine translated) At the beginning smaller rappel with slides, then the attractive dark gorge		
Return: (machine translated) After the Grognardo flows into a large pool of the Argentina (known as Lago Degno), at its lower exit, follow the tracks on the right up to the approach path and along this back to the car. Alternatively, you can walk down the Argentina from the old stone arch bridge, see Argentina for more details.

A very short canyon with easy but interesting obstacles; some slides are possible. It's best to start lower down to avoid hitting the rocks while descending (they're a bit sharp). Scenic finish in a beautiful, flat gorge Exit either at the lake on the right or left immediately after the gorge, with the option to also ride the Argentina trail. (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Grogcardo DC. Joli petit canyon ludique avec un bel encaissement. Départ à la passerelle en fer située sur le sentier de retour. Equipement ok, possibilité de faire les 2 beaux tobogans, attention à l'éjection du 2e qui nous propulse vers le bord rocheux RG. Enchaîné après Argentina pour compléter une demi journée. 45mns à 2 (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21276/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Grogcardo Descendu avant l'Argentina. Court mais joli. Approche : Parking au dernier lacet avant Molini di Triora. Chemin qui part dans l'épingle, peinture blanche et bleue à suivre 20 min jusqu'à une passerelle en bois où débute la descente du Grogcardo. Sortie à la main courante RG avant le Lago Degno. Cela permet de rejoindre en 15 min le Ponte di Mauta où commence le canyon de l'Argentina. Les deux canyons vont vraiment de paire. Descendu avec Titi l'anguille.
