<b>Summary:</b> (machine translated) Raw data import from Ropewiki <a href="https://ropewiki.com/Torrent_des_Riz">https://ropewiki.com/Torrent_des_Riz</a>  Would be a nice canyon for beginners if it wasn't full of trees, because there hasn't been any major flooding here for at least 20 years. (machine translated)		
<b>Hydrology:</b> (machine translated) Limestone, very rarely flooded, which is why dead wood is everywhere in the canyon.		
<b>Access:</b> (machine translated) At the Tine de Montbovon bridge, turn off onto the small road and then park immediately after crossing the Torrent des Riz.		
<b>Approach:</b> (machine translated) The hiking trail leads fairly directly up to the start.		
<b>Tour:</b> (machine translated) Right by the forest path at the top is a stupid downclimb that has also been set up. After that you walk for a while, the canyoning part is relatively short, at the exit you walk again for 15 minutes.		
<b>Return:</b> (machine translated) Go straight to the car at the small bridge.
