Summary: (machine translated)
Short canyon with four abseiling points.

Hydrology: (machine translated)
After rainfall, otherwise almost dry.

Access:

Approach: (machine translated)
From the parking lot (often full), take Rue de la Tour opposite and then Rue de Vérigoud on the left. At the bottom, turn left to cross the bridge over the Falavel.
Follow the path (GR510) and turn left at marker 172 until you cross the valley (climb up the switchbacks to the plain and then down a short descent).
Equip yourself.

Tour: (machine translated)
10 minute hike in the unclear riverbed. 4 waterfalls, 3 of them beautiful C6/C8 in a row, then C28. The water often disappears at the foot of this waterfall. Then a C10 and hike in the unclear riverbed.

Make sure that you do not enter any private property on the way there and back! Park in such a way that you do not obstruct local residents!
Note an emergency exit on the left below the C10, which leads to the access path and allows you to bypass the last part by the river.

Return: (machine translated)
Follow the stream to the bridge and climb up again as on the way there.

Ideal canyon for teaching beginner canyoneers. Many different anchors. All existing fixed lines need replacement. Start just beyond the fence 'private property'
