Ropes: 2x30m

Summary: (machine translated)
The highlight is the c45.

Hydrology: (machine translated)
Paths on the left bank on both sides of the 45 m high slope.
Good equipment, possibly take some webbing/ropes with you.

Flow slightly lower than its neighbor Santa Lucia inferiore (visible on arrival at road level), slightly less pronounced aquatic character, no swimming.

Access: (machine translated)
Coming from France, take the A8 highway via Nice, continue on the A10 towards Genoa, take the Imperia Est exit.
Then take the SS28 road towards Ormea - Colle di Nava - Turin as far as Acquetico.
Turn left towards Ponti (canyon of Santa Lucia), up to Montegrosso Pian Latte.
Cross the village via small hairpin bends, pass the road that leads to Mendatica on the right (this road is not shown on the map) and turn left at the next junction (the road that goes straight uphill leads to Marga Pian Latte).
Continue for about 30 meters and park in a parking lot on the left just before you cross a small bridge.

Approach: (machine translated)
Cross the small bridge and follow the slightly ascending concrete path on the right (red arrows of the Moto Club) to the old bridge over the Rio, starting at 880 m altitude.

Tour: (machine translated)
We start at the bridge with a 10 m rappelling route (natural anchoring RG).
Some waterfalls lead to the beautiful C45, which is divided into two rappelling routes (20+30), with a cramped intermediate belay on the left bank. This is followed by two small waterfalls with shallow pools. The exit is on the left bank of the bridge at an altitude of 726 m.

Return: (machine translated)
From the bridge, follow the beautiful path on the left bank that leads past an oratory and back to the asphalt road that leads up to the parking lot.
