Automatisch importiert von Descente-Canyon.com für Canyon Fustugère Petit débit mais coule. Les vasques sont très propres. La marche d'approche est magnifique sous les châtaigniers qui changent de couleur. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2220/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Fustugère Canyon a sec mais sympas tout de même.Ca passe avec des cordes de 40 mais juste (en utilisant les MC avec une autre corde). (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2220/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Fustugère Encore qq vasques un peu remplies, juste assez pour se rafraichir, mais bientôt à sec. Filet d'eau en amont, qui disparaît parfois. Sinon, joli canyon à faire à sec aussi, pour la pratique technique et équipement de descentes en rappel et mains courantes. Automatisch importiert von Descente-Canyon.com für Canyon Fustugère Débit correct, eau très bonne. A la fin, lors du passage sous le bloc, le mieux c'est de descendre sur la droite et prendre le relais intermédiaire, situé sous le bloc (pas celui sur le bloc qui n'est plus accessible). Sinon frottement niveau 3. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2220/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Fustugère 09/05/2026 – Fustugère - Observations:A good surprise, the canyon is very beautiful with emerald pools and some nice vertical features such as narrow passages or a suspended block from which you can abseil.The canyon is slippery in this early period. Overall the gorge is well equipped with stainless steel pins and passages out of flow whan necessary. Comments on the approach and return:For approach it is important not to miss the path that winds up through the chestnut grove. It is not marked but it is a big path just before a small concrete hut, and just past it you'll come across a hiking sign. If you see these two landmarks, turn around—the path is about 50 meters back.Total time:3h30 hours from car to car.Pictures here: https://www.instagram.com/p/DYT5gNFjFo7/?igsh=MWMzejFjam15YWtvbg== (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2220/observations.html)
