Country: España / Spain **Region:** Aragón **Subregion:** Huesca **Town:** Arascués, Nueno		
Difficulty: not as difficult	**Grading:** v3 a2 III	**Total time:** 4h20
Approachtime: 1h20	**Tourtime:** 2h30	**Returntime:** 30min
Altitude entry: 1090m	**Altitude exit:** 940m	**Delta Altitude:** 150m
Canyon length: 600m	**Highest rapell:** 18m	**Amount rapells:** 12
Transport: on Foot	**Rock type:** conglomerate	**Drainage area:** km²
Season:	**Orientation:** South	**Best Time:**
Rating: ☆ 2.3 (2)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:
Ropes: 2x20m

Summary: (machine translated)
Narrow cut rappel canyon in conglomerate, usually without water dipping set

Hydrology:

Access: (machine translated)
From Huesca we take the A-23/N-330 north towards Sabinanigo. After 10 km (from Huesca bypass on the N-240) we leave the highway at the gas station/hotel "Monrepós" and cross the same then in the direction of Arascués. At the traffic circle, after the bridge over the highway, we turn right on the N-330 and next to the highway to the north. We pass a golf course, turn left 1.5 km after the traffic circle and go along a drawing board settlement (NNW). The road curves to the west and we come to a road junction on the northwest edge of the settlement, 1.3 km after leaving the N-330. Here we park our car.

Approach: (machine translated)
At the junction we take the track north to the water reservoir. Once there, we follow the path that takes us further up the hollow in a northerly direction. When it gets lost, we keep left up to the ridge next to the canyons. Here we find a clear path, which we continue to follow until an access to the streambed opens on the left.

Tour: (machine translated)
After a "run-up" in the streambed, we come to the first rappel. A total of 11 more follow until we finally stand in the large "sala" with the hermitage.

Return: (machine translated)
Down the path and then keeping left to the car

Coordinates:
Canyon Start 42.2821 -0.4563
Canyon End 42.2779 -0.4583
