Automatisch importiert von Descente-Canyon.com für Canyon Bloc Sec malgré les pluies des jours précédents. Équipement toujours en place. L'arête semble stabilisée même si des pierres jonchent le canyon en de nombreux endroits. Tout comme Prunes, la vue sur Cilaos et Bras Sec est belle. Pas besoin de frontale pour passer le "tunnel Labête". On sort du canyon relativement propre. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23332/observations.html)
