Specialities:

Gear:

Summary: (machine translated)
Canyon to be combined with Gurp or with Grau de la Plana, for collecting, a split vertical of 50 or 60m max, better with a combination of vehicles.

Hydrology:

Access: (machine translated)
On the C-13 from Tremp to Pobla de Segur we arrive at Talarn. Just at the entrance we turn left towards Gurp.
Situation bcos Avellanes, Forns, Fuiet, Grau de la Plana
Just before reaching the village there is a sharp right turn on the Grau ravine, we can park the return vehicle here.
The access vehicle, 1.5 km before we have a track on the left that goes up towards Montibarri, we will go up through an area of hairpins and then along the edge of both slopes with magnificent views on both sides, for about 4kms until we reach a fork where we will park.

Approach: (machine translated)
The access from the upper parking is simple, we will only have to follow these streams to the Font de les Avellanes and follow the riverbed.
If we only have a vehicle we will have a good hiking path, we have trails and tracks that will shorten the access.

Tour: (machine translated)
See mole

Return: (machine translated)
We continue walking along the creek for about 150m until we reach the road.
