Transport: Car optional	**Rock type:**	**Drainage area:** km²
Season:	**Orientation:** East	**Best Time:**
Rating: ☆ 3.1 (2)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:
Ropes: 1x30m+1x20m

Summary: (machine translated)
Gloomy rappel canyon, several delicate possible jumps, full water flow, even in summer.

Hydrology: (machine translated)
https://www.chcantabrico.es/sistema-automatico-de-informacion-detalle-estacion?cod_estacion=A611

Access: (machine translated)
From the Santander - Oviedo road (first N-632, later N-625) at Arriondas turn south towards Leon (i.e. continue on the N-625) and via Cangas de Onis turn right into the upper Sella valley (signposted Riano / Leon). Via the Puente Vidosa (restaurant) we cross the Sella to the orographic left side, a few km further on we turn again to the right side and a little later via the Punte la Huera again to the left side. Immediately after this, the little road to Viboli turns off to the right (signpost). Now the road continues upwards along the right bank of the Viboli, past a turnoff to Casielles, until the road crosses the stream just before a sharp right turn (about 3 km from Rio Sella). Here there is room for the car.

Approach: (machine translated)
Right next to the bridge into the stream.

Tour: (machine translated)
8 rappel, narrowly cut, attractive, on the way back on the road you have good views into the canyon.
You can also walk down the canyon to the Rio Sella, see Gomez/Tejero aaO: tramo final (Foz de Andamios).

Return: (machine translated)
Right up to the road and on it in 20 min. to the car.

Coordinates:
Canyon Start 43.1818 -5.0983
Alternative Canyon End 43.1873 -5.0783
Canyon End 43.1834 -5.0918

Automatisch importiert von Descente-Canyon.com für Canyon Viboli Attention à l'accès pour remonter jusqu'au "parking" il ne faut surtout pas un camion H2 (Renault trafic H1 max). Sinon canyon vraiment Sur côté, la partie "inf" ne vaut vraiment pas le coup surtout avec la sortie sanglier après le pont à droite (et non juste en dessous) et avec les eaux usées du bar resto qui jette tout dans le rio..! (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21534/observations.html)
